## CALL MASS MEETING FOR NEXT SUNDAY

FIRST OPTION GATHERING OF CAMPAIGN AT BAPTIST CHURCH.

## TOTAL PROFESSIONS IN REVIVAL NOW 53

**Repeating of Difficult Verse by 5-Year-Old Feature of Services Last Night —Afternoon Meetings Planned.**

The members of the First Baptist church begin the third week of their revival tonight, with fifty-three professions as the result of the fortnight's work. One profession was added last night, when Rev. Smoot preached to a crowded house.

The Rev. L. M. Hale, pastor of the church and a member of the executive committee of the local option campaign, announced last night that a mass meeting of the citizens of Maryville will be held in his church next Sunday afternoon at 3 o'clock. The main floor of the auditorium will be reserved for the voters and the balcony for the women.

Before his sermon proper last night Dr. Smoot took occasion to hammer home two of his beliefs—one that no Christian could rightfully vote for the saloons and another that Christians who want to be effective soul winners cannot dance or play cards.

Much interest is being added to the services by the giving out of Bible references at each service to be repeated by one person in each section at the following service. Last night the entire congregation were surprised when a little girl in the last section to be called upon gave the very difficult verse.

The preacher asked the little miss to stand upon the seat so that everyone could see her. It was Doris Wallace, 5-year-old daughter of Mr. and Mrs. George Wallace. Doris is a very precocious child. Although she will not be 6 until the 25th of February, she has been able to read and count for more than two years. She also has a remarkable memory for poetry and other selections.

About twenty candidates for church membership will be baptized in the early part of the service tonight. Dr. Smoot preached last night upon "The Power of the Blood." His subject yesterday morning was "God Keeping His Children Saved." The text was "The Lord forsaketh not His saints; they are preserved forever."

**The Morning Sermon Yesterday.**

Rev Smoot said in part yesterday morning:

"There is a vast difference between a fellow having his name on the church book and in the Lamb's Book of Life. It ought to mean the same thing, but it does not always mean the same thing. We recognize the fact that there are unsaved people with membership in our churches. It is impossible for a truly regenerated and adopted child of God to ever apostatize so as to be finally lost. A sinner that falls from grace falls from it be-

## HOPE HIGHER FOR BILLS

**Preparedness Fight Will Be Lead by Sherley—Third of Democrats and Three-Fourths G. O. P. Favorable.**

Special to The Democrat-Forum.

Washington, Jan. 17.—Hope for the administration's preparedness program were renewed today when it became known that Sherley of Kentucky, chairman of the sub-committee of fortifications, has agreed to lead the Democratic fight in the house.

Leaders claim that careful counts show that more than a third of the house's Democratic members and fully three-fourths of Republican vote will be for the administration bill.

**National Civic Federation Meets.**

Washington, Jan. 17.—National preparedness occupied prominent position on the program of the National Civic Federation, which opened its sixteenth annual convention. Seth Lowe made strong appeal for the measure.

## COLUMBIA HAS PROSPERED

**E. C. Clinkscales, Former Mayor and President of Commercial Club Tells of No-Saloon Benefits.**

E. C. Clinkscales, former mayor of Columbia, and President of its Commercial Club, said the following at Boonville. He was once a wet leader.

It's the money. The United States is bribed to permit whisky to be distilled; the state is bribed with the revenue; so is the city; the saloonkeeper is in the business for the money; the bank is for the saloons because it wants the saloon account. When I was wet I found three reasons for not deserting: Local option hurts business; whisky will be used as much and morality will be no better. I have come to know from experience that every one of these arguments is false.

As soon as we voted out the saloons we lowered taxes and raised city salaries. The banks soon increased from three to five, and each one increased its business. Since then we have built 67 business houses. We build one hundred residences a year, running in value from $500 to $20,000. No use talking to Columbia people about saloons. Prohibition will prohibit.

Of course, as long as Boonville and other neighboring towns are wet, a little whisky will be shipped in now and then, but I have noticed that whisky is now used where it does the least harm. A man isn't tempted to drink under present conditions. Men, if you vote the wet ticket, turn around and see who your crowd is. I woke up to find that the saloonkeepers and I were standing alone.

**Fire at Mrs. McCombs.**

The fire department was called to the home of Mrs. William McCombs, 522 North Fillmore street, this afternoon about 3 o'clock. A hole in the roof was burned and damages estimated to be $50.

**Death of Lesso Voshell.**

Lesso Voshell, 19 years old, died yesterday afternoon at 4:30 o'clock at his home at Dawson, and the funeral will be held tomorrow, burial taking place in Possum Walk cemetery.

Mr. and Mrs. Charles D. Bellows and Mr. and Mrs. Dale Bellows are spending the day in St. Joseph.

## THE TARIFF TALK

SOME DEMOCRATIC FACTS FROM WASHINGTON.

## BONDS ISSUED FORMERLY

**Administration Will Face Situation Boldly With Tax—Other Nations Borrowing.**

(By W. C. Van Cleve.)

Washington, D. C.—While the high protectionists throughout the country are howling themselves hoarse in their effort to blame all the deficiencies of recent years on the Underwood tariff, history is quietly disproving their arguments. History is a perfectly credible witness, but is of a retiring disposition and does not force itself upon an innocent public as an ordinary blustering, boisterous politician or a dollar marked beneficiary of special tariff favors. Mr. Underwood and Mr. Kitchin have both shown by indisputable figures that the present tariff law, during the time it was in operation prior to the outbreak of hostilities across the Atlantic, produced for the government ten million dollars more in revenue than did the Payne-Aldrich law during the same period of the last year of its existence.

When trade between the nations, so far as imports were concerned, was swept from the seas, the loss in import duties had to be made up and must yet be made up in other forms of taxation. Republican leaders assume to object to the imposition of the stamp or war tax, and yet a Republican administration with a Republican congress enacted a stamp tax at the close of the Spanish-American war to cover up the deficits caused by that ill-advised war and the indefensible purchase of the Philippine Islands, on the opposite side of the globe. They answer, "Oh, we did that, but we never did impose a stamp tax in times of peace." They don't tell you, however, that on numerous occasions since 1865 they did issue bonds for millions upon millions in order to cover up deficits in the federal treasury.

And, in connection with these facts it is also interesting to learn that, while the United States has been struggling to live within its income and meet the increased expenditures due to the conflicts in Europe and Mexico, practically every country of consequence has been borrowing money because of the same war that has disrupted the commerce of the whole civilized world. The warring nations are, of course, borrowing every dollar they can raise, both at home and abroad, but they are not the only ones compelled to seek money because of the war. The October "Information Quarterly" gives the following interesting list of loans negotiated by neutral countries up to the end of last July, loans occasioned solely by the war.

| | |
|---|---|
| The Netherlands | $143,000,000 |
| Roumania | 65,000,000 |
| Switzerland | 31,000,000 |
| Bulgaria | 30,000,000 |
| Egypt | 25,000,000 |
| Denmark | 16,000,000 |
| Norway | 11,000,000 |
| Sweden | 14,380,000 |
| Total | $335,380,000 |

Greece has also borrowed large sums and Bulgaria has since become involved in the war. How many millions these countries have added to their debt since July I cannot say. The list does not include the South American countries, figures for which are not available.

In addition to these loans, the world generally has been increasing taxes. A dispatch from The Hague states that Holland has increased its taxes heavily and that new ones are looming ahead. The minister of finance has recommended the imposition of seventeen different taxes. Income taxes are raised, and he has gone to the limit of urging taxes on names and charitable institutions. One Christian name is to be free, but additional names must bear a tax.

President Wilson has favored the "pay as you go" plan and has so far refused to issue bonds, although the Panama canal bonds are available. He does not believe in shouldering upon future generations the debts that belong to us, if it can be avoided. The people of the United States should give thanks that they have suffered so little from this great conflict of nations. Our difficulties have been light as compared with some and our profits have been past reckoning.

John H. Sewell went to Kansas City Sunday on a busness trip.

## AD CLUB ELECTION TONIGHT

**W. E. Jones of Hanamo Was President Last Year—Meeting in Commercial Club Rooms at 7:30.**

The officers of the Maryville Ad club for the coming year will be elected tonight in a special meeting in the commercial club rooms, beginning at 7:30 o'clock. W. E. Jones of the Hanamo Telephone company has been president during the last term of officers.

**DEATH OF COLONEL EADS.**

**Died Sunday Morning and Body Sent to King City Today for Burial.**

Col. C. J. Eads died Sunday morning at 3 o'clock after an illness of a month. Mr. Eads was the proprietor of a repair shop located on North Market street, next door to the Wiles blacksmith shop. He was employed for some time in the Barmann shop before starting his business.

The body was taken to King City this morning and burial will take place there.

## 3 POINTS WIN AGAIN

M. H. S. VICTORS AT NEW HAMPTON SATURADY NIGHT IN B. B.

## MOUND CITY HERE FRIDAY

**Normal Team Will Leave Wednesday Morning for Trip to Springfield —Missouri Wesleyan Cancels.**

Another H. S. victory with just three points New Hampton being the loser. Maryville high school's basket ball team now has three opening victories to their credit. Next Friday night we will have the privilege of seeing them mix with Mound City here.

The Mound City boys have been playing since the opening of the school year and have a strong team, which has defeated Rock Port and Tarkio. The game will be in the Normal gymnasium Friday, January 21. St. Joseph Benton comes a week later.

Meanwhile the Normal team will be away on the second trip of the season. Missouri Wesleyan, with whom a game was scheduled for Wednesday of this week, have canceled the game on account of examinations there. The game will be played some night next week, when the team will go to Liberty to play William Jewell.

Walter Hanson, director of athletics, is telephoning today for a game Wednesday night with Kansas City University, Park college or the Kansas City Veterinary college. All are strong teams, not in the conference, which would give good games and help to make the trip a paying proposition.

The team will leave here early Wednesday morning and will leave Kansas City after their game there in time to reach Springfield Thursday morning at 11:30. They will meet Drury, last year's champs, Thursday night, and the Springfield Normals Friday and Saturday nights. Drury defeated the strong Kansas Normals 42-14 recently, so a real battle is expected.

Six men are certain to make the trip, according to Mr. Hanson and Coach Palfreyman. They are Captain Leech, Scarlett, Vandersloot, McClintock, Homer Scott and Oscar Lollis. Eight men will be taken and the contest for the other two places is between three men, Neal Garard, Walter Scott and Charles Wells, depending upon their showing today and tomorrow.

Reports of the Normal games on the trips will be received by The Democrat-Forum as soon after the games as a telegram can reach Maryville. This will probably be between 10:30 and 11 o'clock.

**The Game at New Hampton.**

Selecman, center for the high school, gets the credit for being the star at New Hampton. He made eight field goals. The score at the end of the first half was 21 to 16 for Maryville. Flemming, Crawford, Selecman, Harris and Tilson was the line-up for the opening of the game. Van Cleve replaced Flemming in the second half. Woodward did not get into the game.

Mock was the star for New Hampton getting five field goals. Moyer, coach of Central high school, St. Joseph, was referee of the game, and Magee of New Hampton, umpire. Powell of the Normal, who refereed at Pattonsburg, accompanied the team to New Hampton and returned with them yesterday.

Horace Richmond left today for Corpus Christi, Texas, where he will spend a few weeks with Mr. and Mrs. Fred Shade.

## 2 MEN GET 2 YEARS

AND HARRY PALMER SENTENCED TO THREE YEARS AT BOONVILLE.

## FIRST COURT DAY BUSY

**Many Agreements, Dismissals, Continuances and Judgments Clear Up Docket of Circuit Court.**

The January term of the Nodaway county circuit court opened this morning with Judge Arch B. Davis of Chillicothe on the bench. A large number of cases were disposed of, the most important of which was the sentencing of two young men to two years in the state penitentiary.

They are William J. VanGemert and George L. Vance, who pleaded guilty to entering a house near Guilford and taking a large list of valuables. Both of the young fellows were tramps and gave no definite addresses.

Charles Hyatt and George Sigler pleaded not guilty to the grand larceny of the tarpaulin and tools from the hay baling outfit of Wayne Judah and George Lucas. Their trial is set for the eleventh day of court, January 28. W. G. Sawyers, prosecuting attorney, nolle prossed the cases of William Rose, charged with violating the local option law, and Jack Bloom, charged with petty larceny.

The paroles of Francis Curry, Sherman A. Munn, M. S. Cook, Everett A. Bagby, Alf Thornton and Harlun Reece were continued. Alfred Deardorff, who was convicted of forgery in October, 1912, and sentenced to three years in the penitentiary, failed to appear to answer to his parole this morning. His parole was ordered revoked and the sheriff was ordered to deliver him to the warden of the penitentiary.

**Divorce for Jesse F. Reynolds.**

Ester B. Reynolds filed suit for divorce against her husband, Jesse F. Reynolds. He filed a cross bill, and after hearing the evidence this morning, Judge Davis gave judgment to the husband. The divorce cases of Iva C. Coulter vs. Arvin Lee Coulter and James G. Skidmore vs. Pernicia Skidmore were dismissed by the plaintiff at his and her cost.

Other cases which have been dismissed are: Rosa J. O'Howell vs. Susan Barringer; Fred Wright vs. Joseph Kempf et al., an appeal; Kingman Plow company vs. John W. Holt; Real Estate bank vs. Frank Tarpley and B. F. Tarpley; Charles McIntyre vs. C., B & Q. R. R.; Lowell Campbell vs. M. F. Carden.

Wright and Ford, attorneys for Edward L. Townsend, chairman of the board of public works of the city, whom Ditto is suing on some work which he alleges Townsend ordered him to do without authority, filed motions for the plaintiff to deposit surety for costs and to make his petition more definite and certain.

An agreement for $100 between Miss Mildred Anderson and the city of Maryville for damage by falling from a small bridge on Fifth street was filed by Cook, Cummins & Dawson, attorneys for the plaintiff. Public sales by the sheriff were ordered in the cases of William F. King, Arthur King et al., an ex parte suit, and in the partition suit of James W. Weathermon et al. vs. Caroline Weathermon et al.

The motion to re-tax costs in the case of Bert Cornwall vs. James A. Kavanaugh was confirmed as to W. T. Groves, Clarence Leeper, C. F. Miller, I. T. Jones, Gus and Freeman Cornwall. The motion was overruled for other persons.

The motion to quash in case of Robert McMichaels vs. Emma J. Reece; to perfect title in re Patrick L. Growney vs. Belle Nusbaum were continued under advisement. E. S. Cook filed a separate answer in the case of Real Estate bank vs. A. J. Holt and E. S. Cook on a note.

**Samuel Snowden Loses Suit.**

In the suit on a note against Samuel Snowden by the Nodaway Valley bank, judgment was given to the plaintiff for $424.41 with compound interest beginning from this date at 8 per cent; attorneys' fees of $42.40 with interest at 6 per cent from date, and the costs of the case. Cook, Cummins & Dawson are the plaintiff's attorneys.

William A. Hope, Charles L. Hope, Emma Drydale file answer in case of W. C. Henderson vs. William Hope et al. for partition. The Sisson Loan and Title company filed a separate answer in the case of James W. Rhoades et al. vs. William H. Walker et al. for partition.

Albert C. Nicholas was granted a perfect title in his case against John R. Keatch et al. A. F. Harvey was attorney for Nicholas and G. R. Ellison for unknown defendants.

**Palmer Sent to Reformatory.**

Harry Palmer, charged with obtaining money by false check, was sentenced to the Missouri reformatory at Boonville for three years and three months.

William May of Pickering, charged with disturbing the peace, was given a jail sentence of six months and was paroled.

George Cade, violation of the local option law, on two counts, was sentenced to six months in the county jail on the first count and nine months on the second. He was paroled. Cade is deaf and dumb and Henry Westfall, circuit clerk, acted as the interpreter.

Lawrence Kent and Roy Vanfossan's paroles were continued until the next term of court.

E. E. Shepherd, charged with stealing an overcoat, pleaded not guilty and L. C. Cook was appointed by the court as his counsel.

Berlin, Jan. 17.—The kaiser, it is officially announced, is completely recovered and returning to the front. It is reported in high official circles that he is on the way to the eastern theater of war.

It is predicted on his arrival in the east will mark renewal of a great offensive campaign against the Russians, which was halted by the Servia campaign. Belief is growing that no campaign will be made against Saloniki.

**Belgian Woes by Primate.**

Rome, Jan. 17.—Cardinal Mercier, primate of Belgium, today laid before Pope Benedict the full extent of Belgium's woes. The cardinal carried a large envelope containing the report of Belgian condition and requested the pontiff to forward documents to Cardinal Von Hartmann through diplomatic channels.

Athens, Jan. 17.—Fifteen allied aeroplanes from Saloniki bombarded a Bulgarian camp on the Serb-Greek frontier, and it is reported that a number of Bulgarians were killed and wounded.

**Persia Has Declared War**

Constantinople, Jan. 17.—Dispatch from Van says governor general of Luristan, Persia, has taken over control of national forces. Persia has declared war on Russia and England.

**Allies Now Have Big Guns.**

Amsterdam, Jan. 17.—German announcement that the British bombarded Lillis first intimation of guns to match mighty German howitzers reached allies' western front. Lillie bombarded at distance of twenty miles. Allied artillery also bombarded Lenz.

**Montenegro Has Sued for Peace.**

London, Jan. 17.—Reuter's Athens dispatch says Montenegro reported to have signed armistice with Austria. Similar reports have been made and denied on both sides. Premier Tisza announced in the Hungarian parliament officially today that Montenegro had sued for peace.

**German Prince to Athens.**

Zurich, Jan. 17.—Prince Eitel Frederick, son of the kaiser, is reported to have gone to Athens on a special mission to see King Constantine.

### MARYVILLE'S DUTY TO HERSELF.

The calling of the local option election brings home to every voter in Maryville a question he must determine for himself and altogether for this city. Will he vote to continue the saloons in Maryville or to close them? Do we want them, or do we not?

Maryville has only two saloons and they pay an unusually heavy license. They are run under rather favorable conditions and are perhaps the source of as little complaint as could be expected. Upon the whole, they probably pay as dearly for the privilege of running and do as little damage as in any city to be found.

The question, however, is whether they are to be desired in Maryville at all. The saloon, as an institution, pays a considerable revenue into the city treasury, but, beyond this, it serves no good purpose to the public. It gratifies an appetite that may be restrained without injury to the individual and necessarily preys upon those unfortunates who are unable to govern their passion for drink. It is an inviting center also for young men of immature and unsettled habits whose love of adventure and exploitation makes them the willing subjects of vicious and designing characters. It is from the young men that the veterans are recruited.

Maryville is confronted with a condition peculiarly its own. We have here an important educational institution which we hope to develop into one of far greater importance. It brings to our city many young men and women. The public has come to expect that its centers of education be dry towns. When parents come to the point of sending particularly their young daughters away to school, they naturally incline toward a town without saloons. In obedience to public feeling in this matter practically all our college towns and the seats of educational institutions in Missouri are closing the saloons.

The Maryville Normal has to compete with the Warrensburg Normal in a dry town. It has to compete with the Kirksville Normal in a dry town. Columbia, the seat of the state university, voted dry. Liberty, with William Jewell college, is a dry town; Fayette, with Central college, is a dry town; La Grange, with La Grange college, has recently gone dry, as has Canton with Christian university; Parkville with Park college is dry. These conditions must be met and our decision must influence our future here.

The Democrat-Forum believes that the possession of this Normal school, on which the state has already spent a large sum, obligates us to dispense with the saloons. They undoubtedly breed a certain amount of opposition and antagonism to this institution that should disappear with their removal.

Maryville is rich enough and prosperous enough to provide in another way for her support, if she so determines, and the great question for us to decide is whether this school or the saloon is the more important to us. The Democrat-Forum believes that this view of the question alone makes our duty in the matter clear.

## WHY MEN CHEW TOBACCO

**It's the Only Way That Real Tobacco Hunger Can Be Entirely Satisfied**

**"OLD KENTUCKY" IDEAL CHEW**

Since tobacco was first introduced to civilization, nobody has ever discovered so supremely satisfactory a way to get all the flavor and enjoyment out of it as chewing it. And no other form of chew can give you the hearty, wholesome, juicy flavor that you get from a delicious high-grade *plug* tobacco like Old Kentucky.

The secret of the greatest chewing satisfaction lies in the selection of your chew. Among plug tobaccos the brand that gets the most enthusiastic endorsement is undoubtedly Old Kentucky. The reason for this is not hard to find.

Old Kentucky is made exclusively of ripe Kentucky Burley—the most richly-flavored chewing tobacco that grows. Still more, only the very choicest of all the Burley leaf is used for Old Kentucky.

This choice leaf is selected with the most painstaking care, is stemmed by hand, is thoroughly washed free of all foreign matter and is pressed into plugs so slowly that not a drop of juice or an atom of flavor escapes. Moreover, Old Kentucky is made under the most rigid, cleanly and sanitary conditions.

The result is a sweet, mellow, luscious, satisfying chew that cannot be obtained in any other tobacco than Old Kentucky.

Try a pocket plug to-day.

### TAKE "CASCARETS" IF HEADACHY, BILOUS AND CONSTIPATED.

**Best for Liver and Bowels, Bad Breath, Bad Colds, Sour Stomach.**

Get a 10-cent box.

Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months

### BEDFORD WATCHES ELECTI N

**Southwestern Iowa Much Interested in Result of Liquor Fight in Maryville.**

Creston went dry with the state of Iowa January 1.

Maryville is expected to vote dry February 3. If the drys carry the election one saloon will close within a few weeks and both will be closed before the middle of the year, according to information that has drifted this far from the oasis.

The petition for the election was filed with the council this month by the committee of the drys.

Organizations have been active for about a year with a view to drying up the city when the time came for a vote. When the last election took place the wets were victorious by only a small margin. A strong committee is now engaged in promoting the dry end of the campaign, and it is freely predicted in the city that Maryville will go into the desert column within the year 1916. Their fate will be known next month.—Bedford Times Republican.

# Poultry made him—at 60

Fifteen years ago a man of sixty, broken in health, found himself out of a job and with less than $500 in the bank.

Today he owns, near Topeka, Kansas, his own poultry farm. It gives him a good living.

Was it easy? No, it was a struggle. But he has won by applying to poultry raising the hard-headed common sense of a practical farmer—the same kind of sense you find every week in

# The COUNTRY GENTLEMAN

What this man has done, an inspiration to every man, young or old, prosperous or jobless, is told in the January 22nd issue of The Country Gentleman.

It is just one incident in the poultry news and the poultry knowledge which this great national farm paper brings week by week.

## THE POULTRY CALENDAR

is a weekly reminder and guide for everyone who keeps chickens. It provides a timely schedule for every detail and gives the best methods for the fancier, the commercial egg and meat producer, and the amateur.

And this is but one of twelve regular departments that give you definite, valuable ideas and information about each of the departments of your farm—fruit, live-stock, dairying, market gardening, farm buildings, farm cooking, sewing, etc.

And every week there are from six to ten special articles by special farm investigators.

### SCHOOL VENTILATION POOR

**Writer Tells of Little Girl Who Smelled "Elephant" on First Visit to Schoolhouse.**

When Robert Bruce was gathering material for his book on rural schools he met a lady who had occasion to make her first visit to her son's school. It was just the average school in the average country section. The lady carried with her her little five-year-old daughter, who had recently been to the circus. As soon as the child entered the schoolroom she asked where the elephant was. Her mother assured her that there was no elephant.

"But I know there is," the child insisted, "I can't see him, but I can smell him."

And this may be the kind of air that the average child, your child, sits in, breathes in, studies in, and grows dull in—for five, six or seven hours a day, for five days out of the week. Have you ever made a visit to the schoolhouse, to see for yourself?

At least 99 out of every 100 mothers are not aware of the hygienic and sanitary conditions under which their children are educated, says Elise Ward Morris in Farm and Home. They may provide their little ones with individual cups to be sure that the water they drink is not contaminated by other lips, and remain unaware of the fact that Paul and Annie and John are drinking in air at every breath that has been cast off over and over again from fifty other little lungs. Then they wonder why the children do not keep up to the mark in their studies! They provide substantial lunches for the little hungry stomachs, and remain unaware of the fact that the children are sitting in a room with the temperature above summer heat, clothed in heavy woolen undergarments that would be discarded as torturesome in June weather. Then the mothers wonder why the children catch cold so easily.

## 6 FACTS ON LIQUOR ISSUE

**Put Forward by Temperance Society of M. E. Church From Its Weekly Press Bulletin.**

1. There are more blind pigs in license communities than in prohibition territory; proven by official figures.

2. License and regulation have failed to prevent any of the "abuses" of the liquor traffic.

3. Nine times out of ten, taxes are higher in license territory than in prohibition territory; a fact any man can establish by investigation.

4. Judged by its results, the license system is the most gigantic failure of the century.

5. Prostitution, gambling, corrupt political intrigue—all of these attach themselves to saloons as inevitably as barnacles attach themselves to a saltwater scow.

6. The question of high license versus prohibition is a question of pernicious lawlessness against social health and order.

fore he gets it. What we want to do is to get started right according to the teachings of God's Book. That word 'salvation' is made up of two things—safety and soundness. When a fellow is saved, he is just as saved as he ever will be, but he is not as sound as he ever will be. He grows in grace. The individual that has been saved is all right as far as his safety is concerned, but there is a chance of his working out his salvation. Christians who wail to show their faith by their obedience deprive themselves of scriptural evidence that they are really children of God.

"What does a Christian lose by sin? These are some of the things he does not lose:

"When a Christian sins he does not lose his salvation, but he does lose the joy of it. When a Christian sins he does not lose his spiritual life, but he does lose the influence of it. When a Christian sins, he does not lose his soul, but he does lose the reward. The Christian does suffer loss when he

Baptist Evangelist Who Begins Third Week of Revival.

sins. When a man escapes from a burning house he takes nothing with him but his life. So with the individual who does not work out his salvation. He is barely saved, but he loses his reward. True Christian service comes from the heart that can say: "Not my will but thine be done."

"From all the religions of all the nations of the world, there never has been presented to the world but three plans of salvation. They are these: First, by grace alone. Second, by works alone. Third, by a mixture of grace and works. But these plans cannot all be spiritual. Let us come to the Bible to find out what is the scriptural plan of salvation. Paul says: 'And if by grace, then is it no more of works: otherwise grace is no more grace. But if it be of works then is it no more grace; otherwise, work is no work.' If a man is saved by grace alone, then he is not saved by grace. If he is saved by any one of these then he is not saved by a combination of the two. Then what is the plan of salvation: 'For by grace are ye saved through faith; and that not of yourselves: it is the gift of God. Not of works, lest any man should boast.' 'But to him that worketh not, but believeth on him that justifieth the ungodly, his faith is counted for righteousness.' 'For ye are all the children of God by faith in Christ Jesus.' In the light of these scriptures we know that salvation is not of works, not a combination of grace and works, but we know that salvation is wholly of grace. A sinner is saved by the grace of God and grace comes through faith.

"God has promised to save the sinner and keep him saved. Christ is our surety, 'for He hath said, I will never leave thee, nor forsake thee.' Before a Christian can be lost, Christ must either leave him or forsake him, and He has promised never to do this. Therefore, the impossibility of apostasy."

Miss Dunn and Miss Wheeland will come tonight for a several days' visit with friends.

**Mission Circle Meets.**

The Mission Circle of the First Christian church met Saturday afternoon at the home of Mrs. J. E. Bailey, with Mrs. Bailey and Mrs. Frank Garrett hostesses. During the business session Mrs. Ellis Cook was appointed to confer with the other two missionary societies of the church in reference to supporting another living link. The study was taken up with Mrs. Harry Todd as leader. Mrs. E. B. Burnett had the topic "The King's Highway Along Old Missionary Trails;" the Bible study was conducted by Mrs. H. P. Swinehart; Mrs. Edward Egley read a paper on "Our Station at Luchowfu;" Miss Lorene Bickford sang a solo, and the current events were directed by the leader. A letter from Mrs. H. A. Denton of Galesburg, Ill., "Circle Mother," was read by Mrs. Arch Frank, president of the circle. Following the program a luncheon was served by the hostesses.

## FOUND IN RAISIN CASE.

**Chemist Got Prunes, Rice, Hair, Cat Fur and Lots More.**

Prof. C. H. La Wall, chemist of the Pennsylvania dairy and food commission, is said to have found the following assortment of objects and substances in raisins exposed for sale on a Philadelphia street; pieces of prunes beans and rice; strands of human hair and cat fur; cotton and wool fibers; straw and bits of bran; insect wings and legs; cigar and cigaret ashes, and a yellow cigaret paper. While it is true as The Journal of the American Medical Association says, that the presence of any of these unappetizing accessories did not prove that they were carriers of contagion, the findings strongly suggest the possibilities of infection from food sold from uncovered pushcarts and stands.

G. B. Holmes returned today from Kansas City where he attended a banquet given by the North American Life Insurance Company on Saturday night at the Muelheback hotel.

## Bolivar Women Endorse "Outside" Treatment For Children's Colds

**Instead of Dosing Delicate Little Stomachs They Recommend the External Treatment — Vap-O-Rub.**

Mrs. M. J. Porter, and Mrs. J. Jacques, of Bolivar, Mo., and Mrs. M. E. Ferrel, on Rural Route No. 2, like all intelligent mothers, believe internal medicines are bad for children, and yet cold troubles must have some kind of treatment. When Vick's Vap-O-Rub was introduced here from the South last season these ladies found it filled the need exactly. Vap-O-Rub is a salve, which, when applied to the warmth of the body, is vaporized by the body heat. These vapors, inhaled with each breath, carry the medication through the air passages to the lungs, and, in addition, Vick's is absorbed through the skin, relieving the tightness and soreness. This two fold action makes Vap-O-Rub useful for a wide variety of inflammations—from inflammations of the air passages and lungs, such as head colds, catarrh, asthmatic troubles, bronchitis and deep chest colds—down to inflammations of the skin and tissues, such as burns, bruises, stings, piles and muscular soreness.

Mrs. Porter says—"Vap-O-Rub is very fine for sore throat, rheumatism, etc. I take pleasure in recommending it."

Mrs. Jacques says—"I have used several bottles of Vick's Vap-O-Rub, and have found it better than internal medicines."

Mrs. Ferrel writes—"We have given Vap-O-Rub a fair trial and find it excellent for croup, colds, sore throat, etc. It is certainly fine for children. We have also found it very good in cases of sunburn, fever sores and muscular rheumatism." Three sizes, 25c, 50c or $1.00.

NOTICE:—Last winter, in order to acquaint their customers with Vap-O-Rub, a number of druggists throughout the state presented complimentary jars to a few of their customers, on condition that they give this preparation a thorough trial and report the results. By kind permission these reports are now being used in this series of advertisements.

## CRETONNE TOQUE

An Out-of-the-Ordinary Millinery Creation in a Season When Velvet and Hatter's Plush Predominate, Is This Close-Fitting Toque. The Material Used Is a Cretonne; This Is Sewn on the Close-Fitting Frame, Which Is Shaped to Form a Cone on the Left Side, and Dropped on the Right, Where It Is Knotted and Left to Hang Loosely. A Band of Dyed Raccoon Is the Only Trimming.

## NEW GARMENT HAS CHARM

Corset Cover, Easily Made at Home, Will Be Source of Gratification to Its Wearer.

If you are tired of just underwaists and corset covers, the sleeveless, low-bust kind and the wee camisole, try making this quite new garment for wear under your blouse.

Buy one yard of white silk muslin at 25 cents a yard, one and one-fourth yards of narrow, stout lace and two skeins of white mercerized cotton. Make a waist by kimono pattern with very short sleeves, folding the goods crosswise. Cut the neck V shape in front and slightly rounded or equally V'd behind; have the fronts of the waist one-eighth inch longer than the back. Scallop the entire edge and ends of sleeves and do it in buttonhole stitch, preferably well padded. Then put a double row of French eyelets inside the buttonhole stitching. The seams are under the arms. Put these seams together with the lace; down the front put the lace also, tacking to one side; the other side may be fastened with tiny snaps or with wee gold pins. Turn up the bottom of the waist and fit by means of rubber band run through the hem made. This, by the way, is the easiest way to finish all blouses just now.

Lace blouses are usually lined with chiffon, and the chiffon shrinks when the blouse is washed, leaving a garment that has lost its loveliness. With the new corset cover chiffon linings can be removed before the first washing. No lining is needed with such an underwaist.

## DESIGNED FOR YOUNG MISS

Many Attractive Features Have Been Provided—Belted Coats Are Among the Favored Ones.

The box coat for misses is very youthful and becoming. Another style for misses is the flare coat, the fullness starting from the shoulders and occasionally from a small yoke. This is also made quite short and jaunty. Sometimes these coats are made with a flare back and a more fitted front. Russian styles are well liked for young people. Some of them fasten at the side, while others button up the front.

Belted coats will also be worn to a great extent. Sometimes the belt appears only at the sides, while in others it appears only in back and front. Many times belts are placed at a low waist line. High collars are worn with almost all suits, frequently arranged so as to be worn either open or closed. Coat sleeves are in regulation style, set on at a low shoulder or in modified raglan effect. Flare and gauntlet cuffs are often used as a finishing touch and are frequently of fur or velvet.

Skirts are in various styles. Simple suits are in gored, modified, circular style or with plaits at sides, front or back.

### Woman's Best Friend.

A cake of magnesia and a clothes brush are a frugal woman's friends. After brushing a dusty gown rub both sides of any soiled spots with the magnesia, which comes in cakes for that purpose, hang it away for a day or two and then brush again. The spots will be found to have disappeared. Care taken with dainty clothing is the secret of dressing well on limited means. The late Mme. Modjeska had a wonderful collection of laces which were worn instead of being kept for show alone. They were dressed with magnesia, liberally sprinkled through the meshes, the whole wrapped in tissue paper to remain until the chalk absorbed all the dirt.

## DEATH AT ELMO.

Mrs. Ed Drummond died Sunday afternoon at 5 o'clock and funeral services will be held tomorrow morning at the home in Elmo, and burial will take place at College Springs, Ia. She is survived by a husband and two children, Harold and Anna.

The weather has been very unfavorable, and last night was the first good crowd, the ministers report. No professions of faith have been made yet.

## ADD SALAD DISHES TO MENU

People Today Eat Too Much Cooked Food That Is Frequently Lacking in Nutritive Qualities.

It has long been a joke how cats and dogs, when out of sorts, fly to grass or some kind of green food for relief. The animal knows by instinct what only a few human beings are beginning to learn from experience—namely, that nature has provided vegetables of the leaf order, rich in mineral salts. These salts possess a double power—they not only combine with the acids and poisons in the body, rendering them powerless, but they also drive them out of the system altogether.

It is not too much to say that no great mental, moral or physical progress can be made without an ample supply of this vegetable food. Salad is the one ingredient of our regular diet which we cannot afford to do without.

Some people say salad is cold and indigestible, but cabbage, if eaten raw, needs only two and a half hours for digestion, as against five hours when boiled. The boiling of green foods destroys the original organic combination of the mineral salts.

The blood of a healthy person should be alkaline—that is, the opposite of acid—and it is the alkaline salts in vegetables which bring about this healthy condition.

Many thousands of men and women of all ages suffer from anemia, from having lived almost entirely on cooked food.

To those long accustomed to highly flavored food, salads will at first seem tasteless, but a liking for them comes with use.

Salad should be very carefully washed in several changes of clean water. This is essential. During washing the leaves should be well picked over and inspected.

Leaves should be torn, not cut. When done, they can be allowed to soak for an hour, or overnight, but not longer in cold water, to which a little lemon juice has been added to increase the crispness of the leaves.

The Japanese use the petals of many flowers for salads. Chrysanthemums, stocks, violets, roses, nasturtiums and dandelions are especially good, as they possess strong antitoxic powers.

## PARSNIP NOT GIVEN ITS DUE

With Proper Preparation the Vegetable Should Be One of the Greatest Table Favorites.

Do you like parsnips? If you don't, why don't you? If they cost as much as French artichokes—which have far less flavor—wouldn't you like them? Perhaps the reason they have never appealed to you is because they are so common that they are fed to the cattle. Often our likes and dislikes for food are based on such reasoning.

Of course, parsnips must be carefully cooked to be really worth the eating. Baked parsnips have a delicious flavor. To prepare them, wash them and pare them and steam them until tender. Then slice them lengthwise and put them in a baking dish, with butter and pepper and salt sprinkled over them. Bake them until brown in a moderate oven.

Parsnip salad is made of parsnips that have been steamed until tender, sliced crosswise, dredged in flour and fried brown in butter. Chill them and put them on lettuce leaves and add a teaspoonful of chopped ham and one of hard-boiled egg chopped fine to each plate. Sprinkle a little chopped parsley over them and serve with mayonnaise.

Parsnip fritters are made from mashed boiled parsnips. To a pint of it add a teaspoonful of flour, a well-beaten egg and salt and pepper. Make into flat cakes and fry brown.

Scalloped parsnips: Mix two cupfuls of cold, mashed parsnips with two tablespoonfuls of butter and cream enough to make smooth. Put in a pudding dish, sprinkle with buttered bread crumbs and bake until brown.

## REVIVING LONG TUNIC

PARISIAN DRESSMAKERS WORK FOR ITS ADOPTION.

Charming Model Recently Seen in France Is Described by Correspondent—Postilion Hat Sure to Be a Favorite.

Several notable Parisian dressmakers are reviving the long tunic. Some of the latest Callot models give this effect; Redfern also seems to favor the long, graceful tunic. But in all cases the underdress is quite as full as the tunic, indeed, the latter gives the effect of a double skirt, or immensely long flounce.

A Callot model, recently worn at Biarritz by the duchess de Arion, lady-in-waiting to the queen of Spain, had an underdress of black charmeuse and a very long tunic of old yellow lace. On the hips, under the lace tunic, there was a deep insertion of silver lace, worked over with tiny beads in various shades of red, blue and gray.

There were full lace sleeves, caught in at the wrist by bands of beaded silver lace, and a touch of rose pink was very cleverly introduced on the corsage. With this charming garden-party dress the duquesa wore a large, flat-brimmed hat, made of black chiffon and lined with black chip.

Lewis is showing many lovely hats and toques. At first sight these models are quite startling, because in almost all cases the crowns are high, some of them even exaggeratedly high. The very newest and most popular model is the "Postilion" hat in black silk beaver.

This is truly a quaint shape. Narrow in the brim and very high in the crown, with no trimming save a folded drapery drawn through a long diamond buckle; the latter being placed right in front of the hat. It is certain that this model will be one of the most fashionable novelties of the fall and winter seasons.

It is just the right hat to wear with a Cossack coat; or with a redingote

An Early Winter Model by Redfern, a Long Cossack Coat With Full Skirt to Match of Tan Covert Coating, a Sash of Black-and-Tan Striped Silk Jersey.

costume which is finished with a jersey silk sash. To women of regular features these postilion hats are infinitely becoming. Lewis is making his postilion shapes in many different materials, though those in black silk beaver are, perhaps, the best of all.—Paris Correspondence of the Boston Globe.

### Quick Changes.

In an age when styles change over night, it is not the part of sartorial wisdom to lay so much stress on the wearing qualities of fabrics that one is left with old-fashioned but perfectly good frocks on one's hands. Few women appreciate a remodeled gown as much as a new one. Of course a good quality of unadulterated material is superior to any substitute. What one should strongly protest against is being charged for the real thing and given an imitation.

### The Link-Button Idea.

Buttons are again to be featured in the autumn styles. Big ivory buttons are used on cloth one-piece frocks with striking results. The link-button idea is developed on some of the new frocks. Two large buttons are joined by a band of silk or a cord and are thrust through two buttonholes in the sort of standing collar that does not quite meet under the chin and through the sleeves open at the wrist

## NODAWAY HOGS ARE HEALTHY

**Clarence Vore of Hopkins Says Vaccination Did Work—Other Nodaway Shippers.**

"Most of the spring pigs were shipped out of my vicinity light last year," said Clarence Vore, a young stockman of Hopkins, in the St. Joseph Stock Yards Journal. "The feeders were afraid that corn would go higher and that the hog market would get worse instead of better.

"The fall pig crop was large and in spite of the fact that corn is selling for 70 cents a bushel most of the hogs are being finished before sent to market. Less sickness has been noted among the hogs than for several years.

Last winter there was quite a bit of cholera and lung fever, but most of the farmers vaccinated their pigs shortly after being weaned and hogs have been remarkably healthy the past fall and so far this winter."

Will N. Wray, Guilford; G. T. Clardy, Elmo; M. C. Gray, Clearmont; J. W. Praisewater, Burlington Junction; Lee Teson and Ralph Appleman, Skidmore; Vore Bros. and Joe Holker, Hopkins; Stundon & Fisher, Maryville; C. Busby and W. H. Ramey, Arkoe; W. R. Linville and John W. Carter, Skidmore, were Nodaway county men on the St. Joseph market Saturday.

## BIG MONUMENT AT PARNELL.

**Horace Jones, Town's Founder, to Have Memory Perpetuated.**

The largest monument in Nodaway County will be erected in the cemetery at Parnell for Horace Jones, whose death occurred a few months ago. The monument will be of Barre granite and the base is 5 x 10 feet. It weighs 36,000 pounds and makes an entire carload. From the station to the cemetery it will be transported on house moving trucks. —St. Joseph Gazette.

### Buried at Guilford.

Mrs. Reuben Morris, who died at Oklahoma City, Okla., was buried in the cemetery at Guilford Saturday afternoon, funeral services having been held at the M. E. church, South, of that town, conducted by Rev. O. E. Lockhart. Mrs. Morris was formerly a resident of that town.
